I'm not looking for recaps this time around; just specific plans for 2016 or specific closure strategies. I'll see what Tom might have to offer on Cordero regarding plans.  
I'm not particularly interested in a NPL update on Anaconda for this meeting.  
If the question arises I will field it.

Thanks though.  
Jeryl

Hi, would you like an EPA update? Tom could give an update Eureka and Cordero/McDermitt mines, John could give an update on Gold King and I could provide an update on the potential listing of Anaconda.

Subject: RE: next NAMLET Meeting Jan 20, 2016

Hi,

Two weeks from today is the next NAMLET meeting.  
For those of you who have responded so far, thank you.

For others, please respond when you have time so we confirm the meeting location capability.  
For now, the meeting is scheduled for the USGS conference room off Deer Run Road in Carson City, NV, from 2-5 pm.  
We had to move it to 2-5 pm for some folks traveling.  
Call-in information and meeting location directions, and a more specific agenda will be emailed next week.

Here's a rough agenda for the meeting (anyone with specific agenda item requests let me know by next Thursday, 1/14):

Introductions: everyone: 10 mins  
Meeting Goals and Objectives: Jeryl: 5-10 mins  
RAMS projects for 2016: NDOM database work, NDEP database completion, BLM PA-SI projects, others? 10 mins  
CA update for RAMS and other major projects, how they parallel NV work (what can we learn from each other?): 5-10 mins  
NDOM projections for 2016: 10-15 mins  
NDEP projects for 2016 and AML Program goals for 2016: 15 mins  
BLM projects for 2016: 10-15 mins  
USFS projects for 2016: 5-10 mins  
TU projects for 2016: 5 mins  
Presentations and round-table discussion on innovative closure techniques, both physical safety hazards and environmental hazards: 1 hr, 20 mins  
    20 mins for safety hazards, 40 mins for environmental hazards.  
(For those of you wanting to give a brief presentation, or have some time allotted for orally presenting a closure technique or project, please forward that information to me by next Thursday, 1/14).  
Closing comments and identify potential next meeting date: 10 mins.

I'm looking forward to seeing you all in 2 weeks.

Thanks,  
Jeryl

Subject: next NAMLET Meeting Jan 20, 2016

Hi,

The next Nevada Abandoned Mine Lands Environmental Team (NAMLET) meeting is scheduled for January 20th from 1-4 pm.

The meeting will be held in Carson City (location yet to be determined).

I will circulate a more definitive agenda in December, but at least a portion of the meeting will be a presentation and round table discussion of effective closure technologies/methods for both physical safety hazards and environmental hazards; this will especially focus on more recent innovations with demonstrated effectiveness. If you have an interest in participating in the closure methods presentations, or if you have any other agenda suggestions, let me know by December 17th.

Please respond by December 10th so that meeting facilities can be arranged.

A final invite, with agenda, meeting location, and call-in number, will be emailed approximately two weeks prior to the meeting.

Thanks, and Happy Thanksgiving!  
Jeryl
